

Activity1:

Changes done the logo in the following files

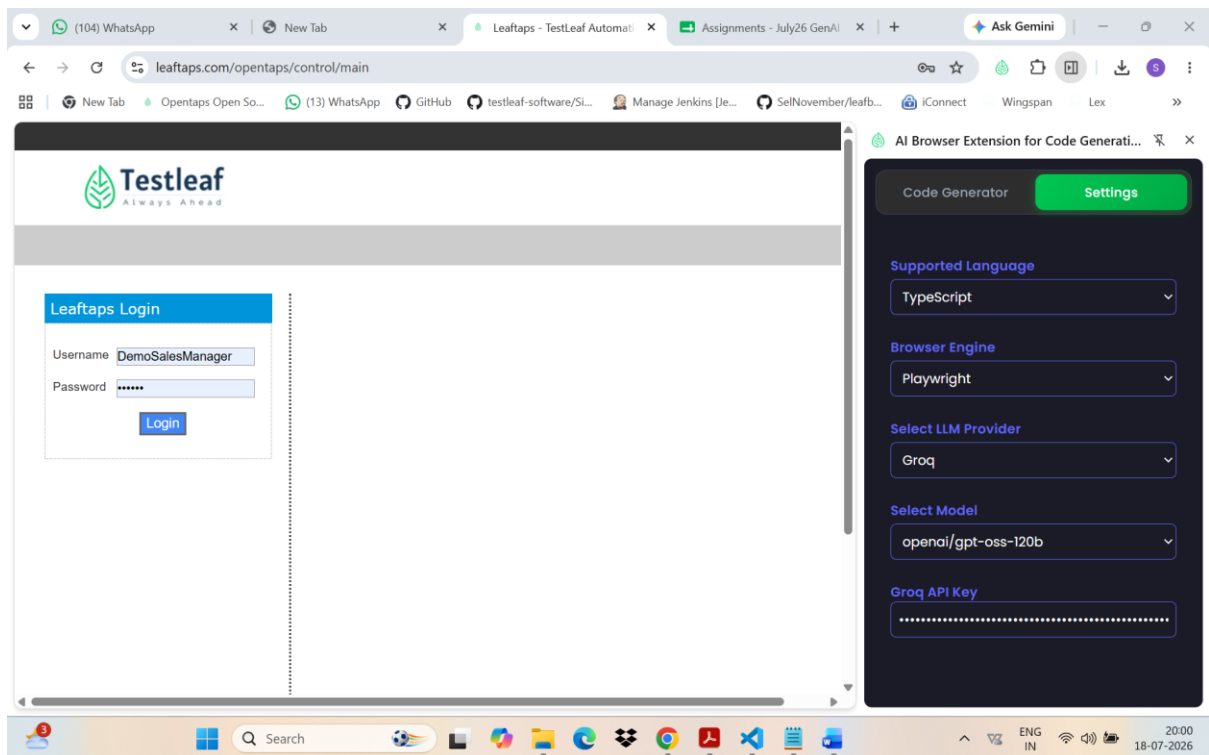

1. manifest.json

2. appConfig.js

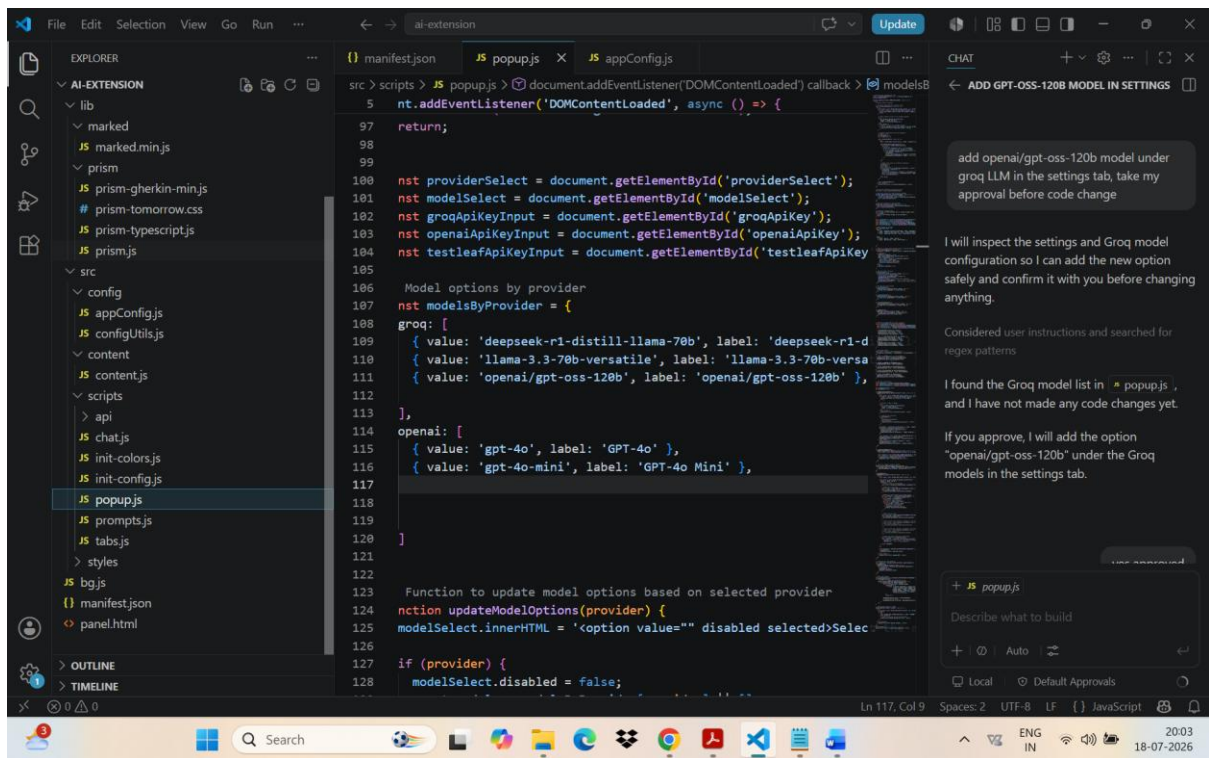

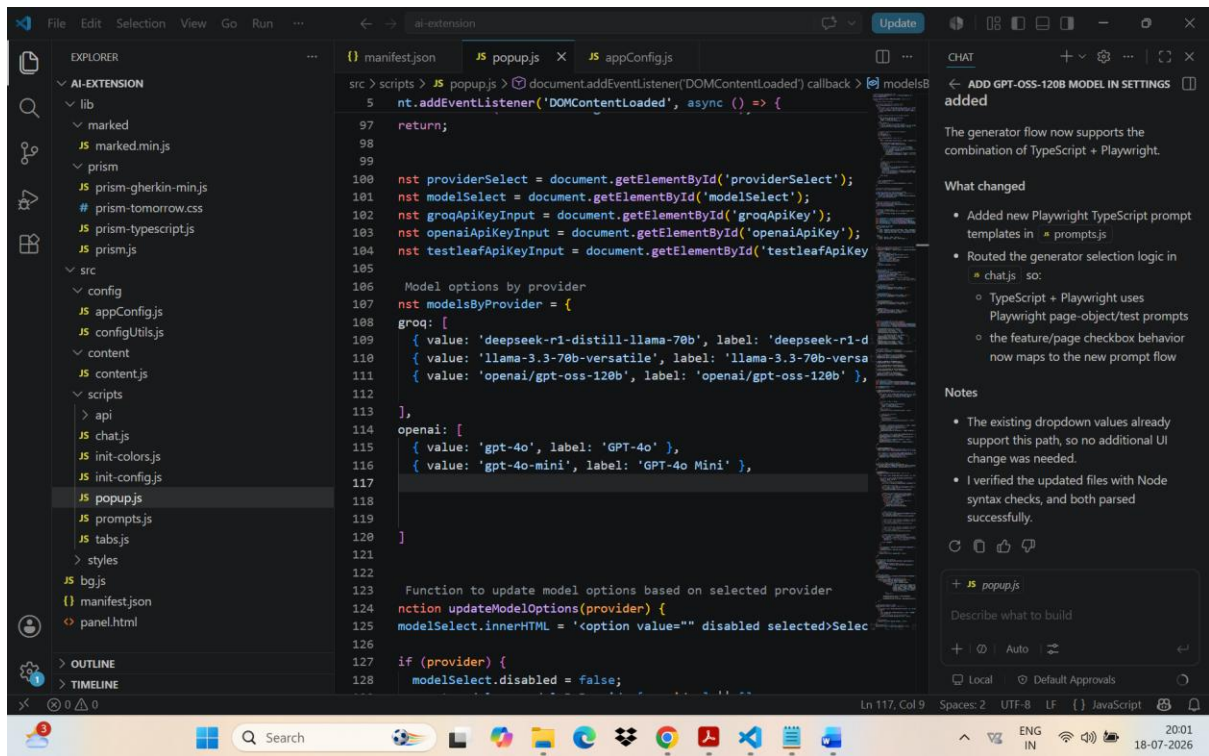

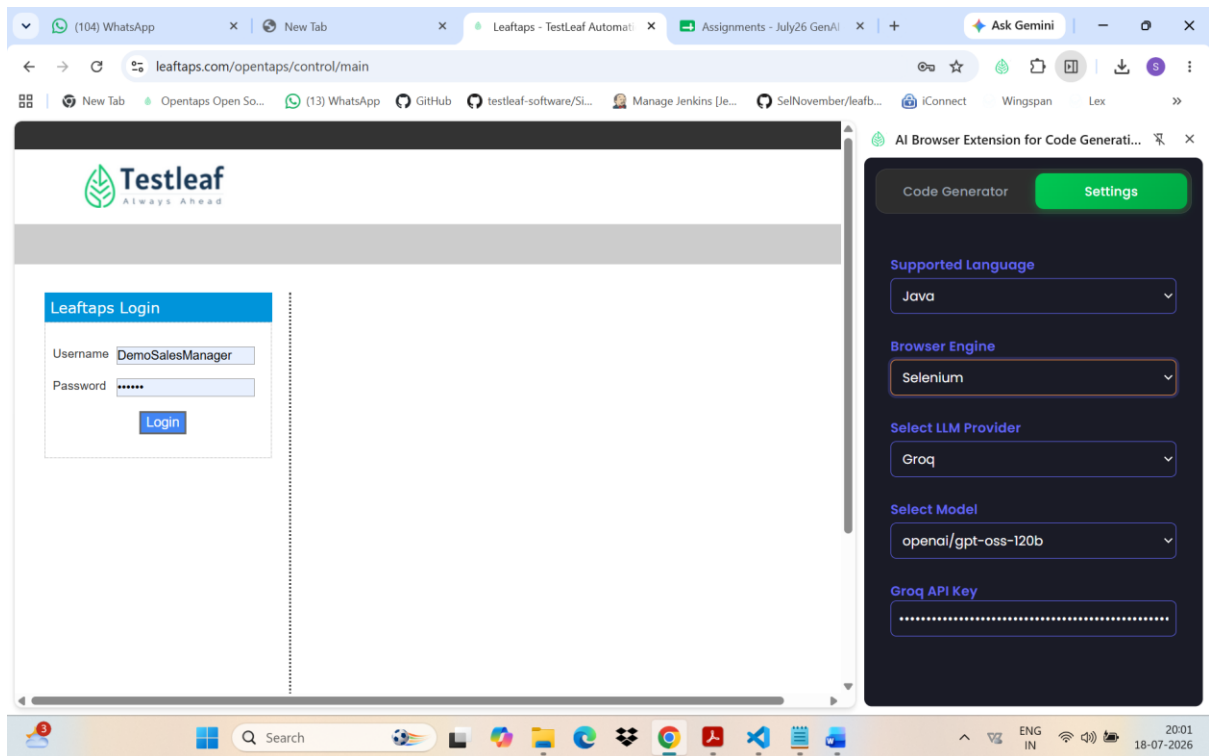

Test leaf logo updated

Activity2:

Added "openai/gpt-oss-120b" to the existing list in popup.js

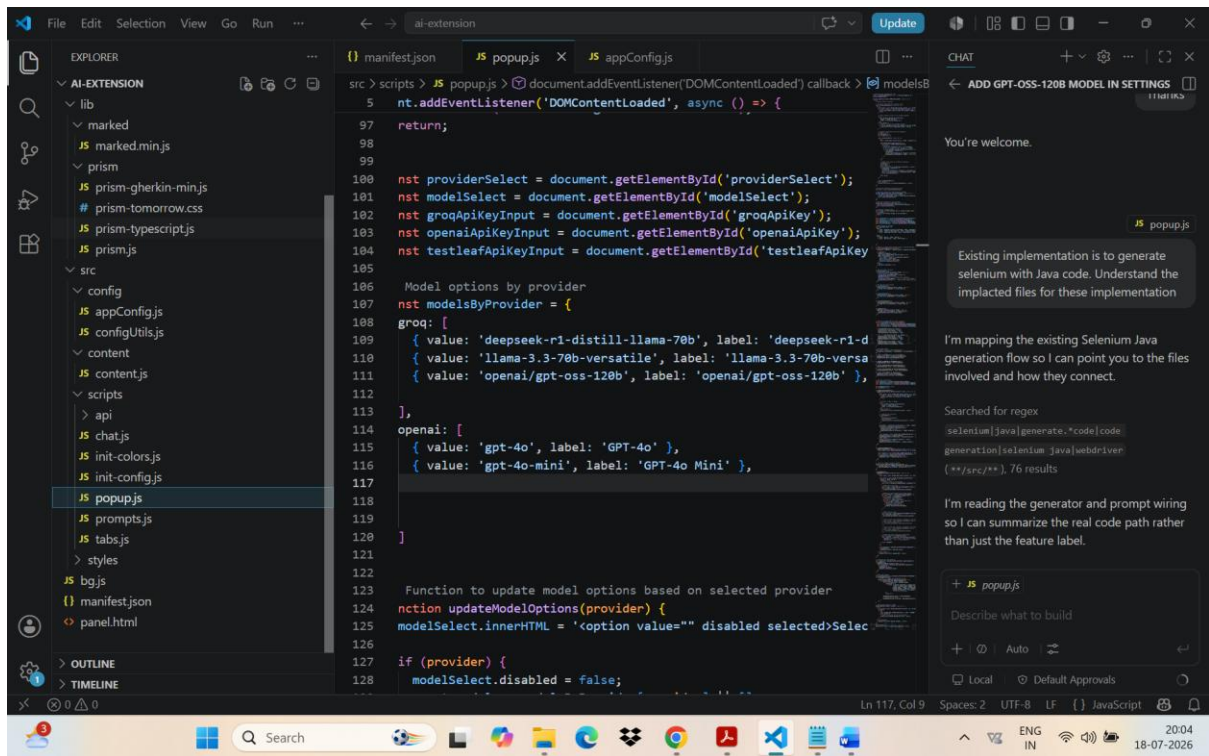

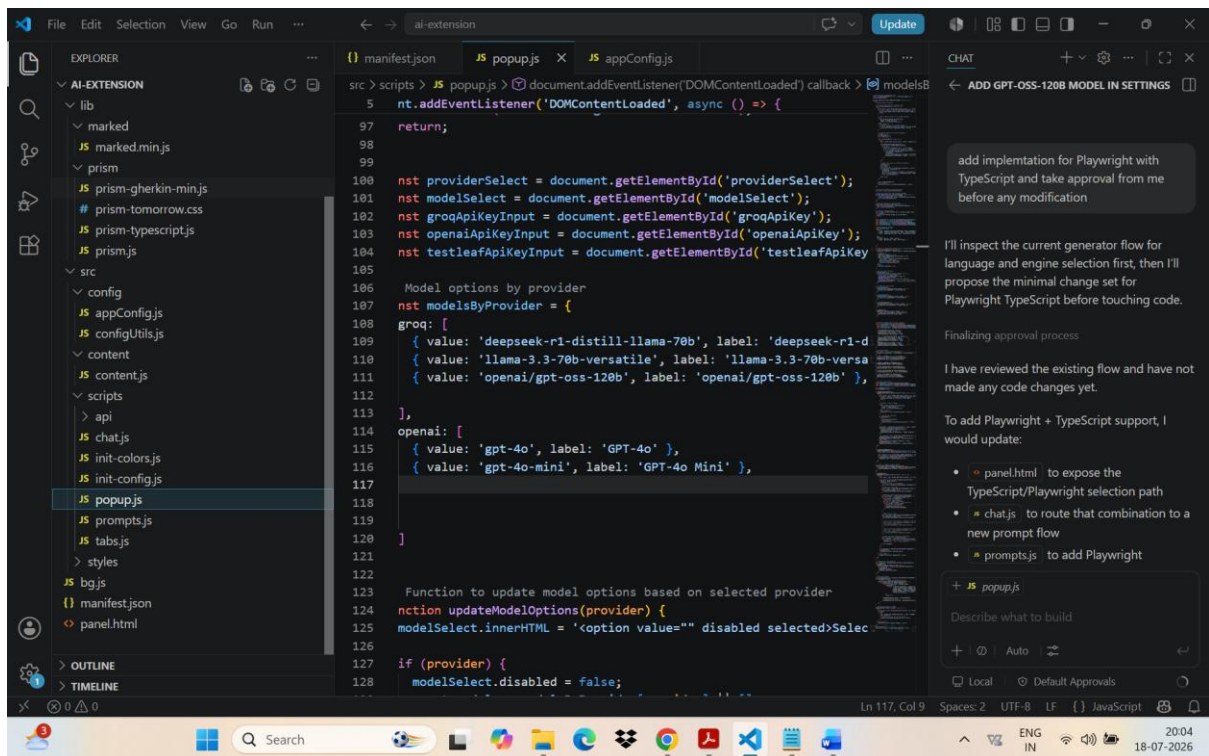

Activity 3:

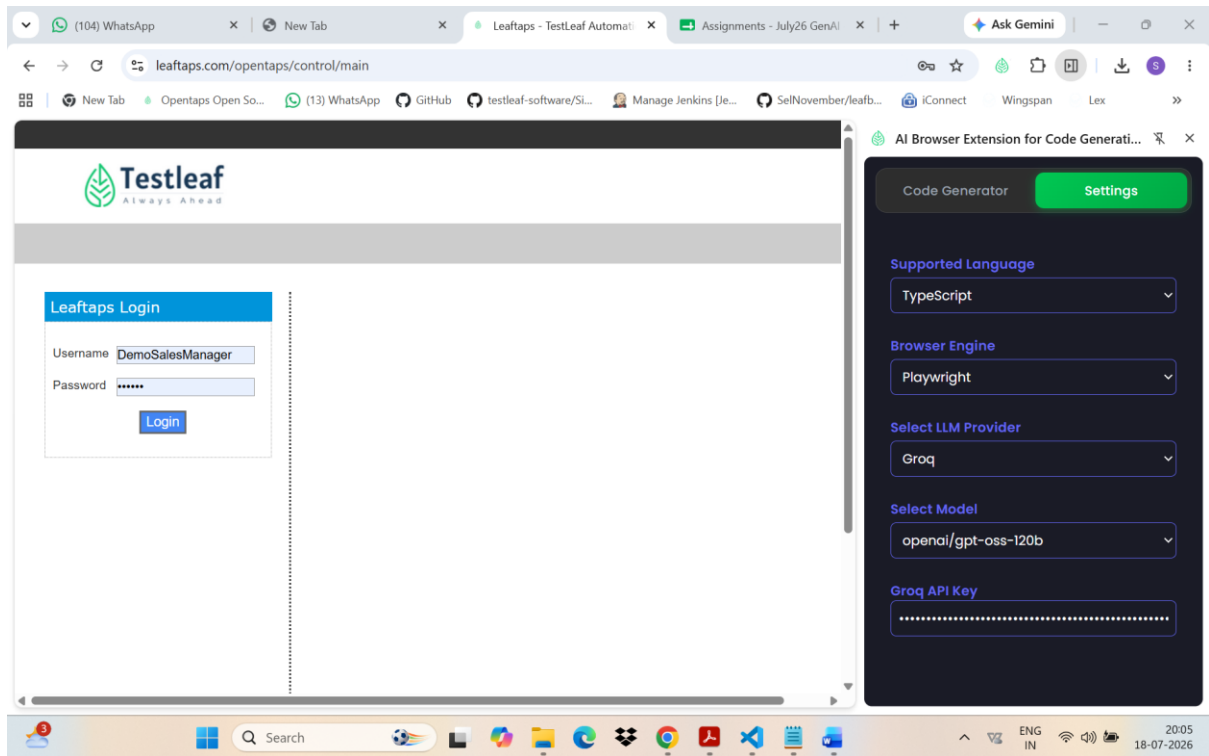

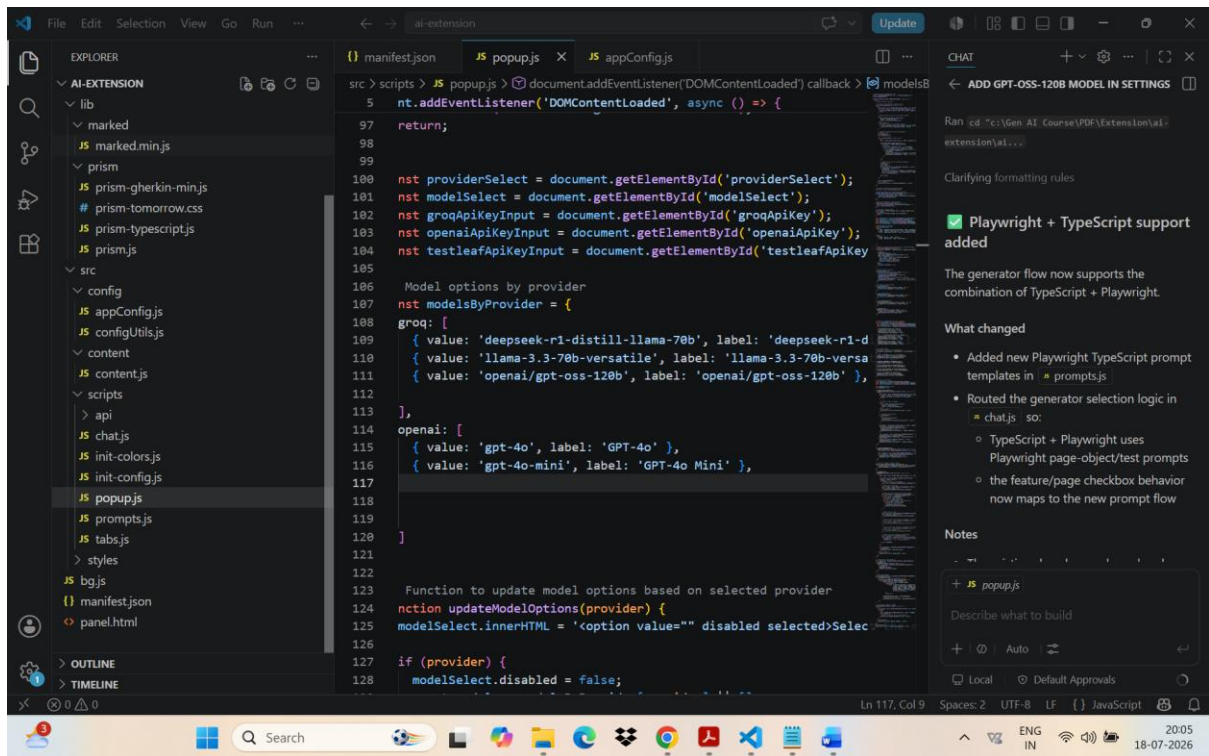

Implemented Playwright with TypeScript

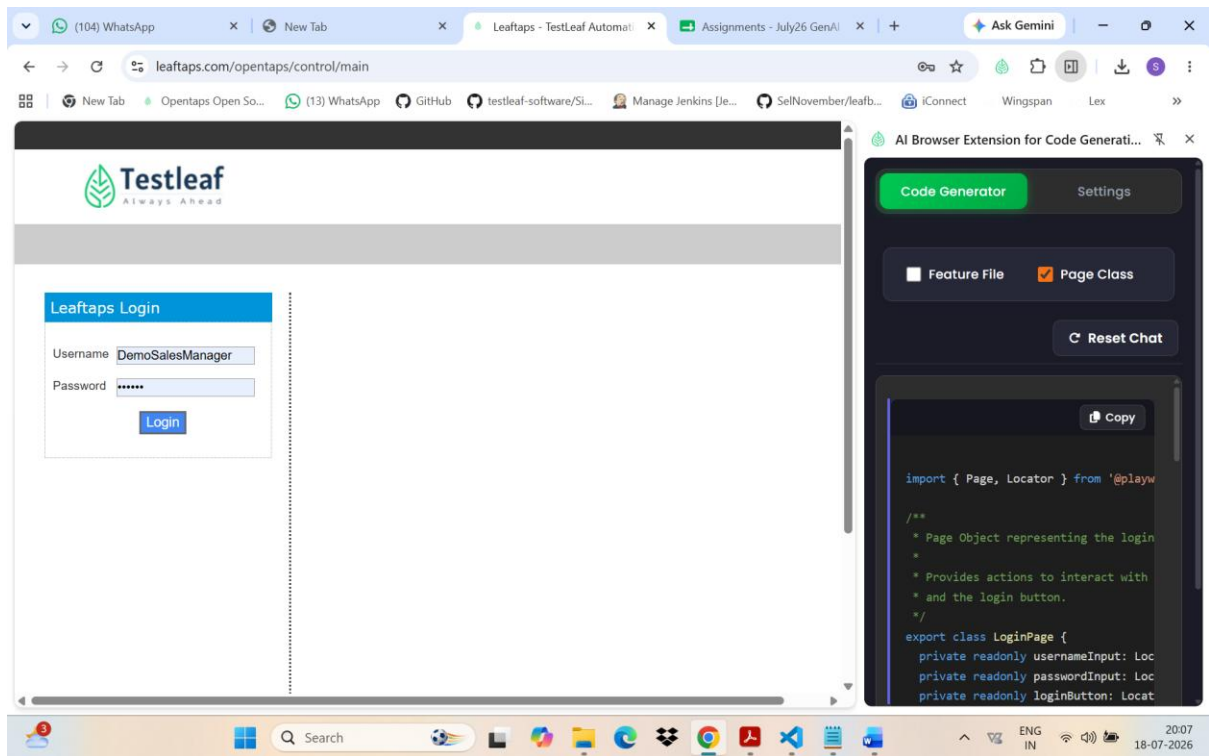

Used Ask Mode to analyze the existing project structure and identify all impacted files required for the Playwright with TypeScript implementation.

Once the analysis is complete, switch to Agent Mode to implement the required changes

Code generated

```
import { Page, Locator } from '@playwright/test';
```

```
